

Cuddle Bug Pomeranians' Health Guarantee

Colene Hagen 780 817 1237

To the original owner, we guarantee your puppy to be in good health with vaccinations up to date.

We ask that you have your veterinarian health check your puppy within one month from the date of sale.

If your puppy develops a genetic, life threatening illness, upon return of the puppy we will refund the purchase price of the puppy.

We require a veterinarian certificate detailing the health problem.

Our health guarantee extends two years from the puppy's date of birth.

All vaccinations must be kept up to date for this guarantee to be in effect.

Please notify us within 10 days and before treatment is started.

You grant permission for Colene Hagen or Jenith Hagen to discuss the case with your veterinarian.

Cuddle Bug Pomeranians reserves the right to request copies of diagnostic test results and/or written proof of the diagnosis directly from the vet. All information will be used to improve Cuddle Bug Pomeranian's breeding program as well as provided proof of illness. We also reserve the right to request a second opinion before reimbursement occurs. We take no responsibility whatsoever for any veterinary costs not related to an inherited condition. We are not responsible for concerns based on training, care, feeding or allergies.
